Hunter Panels and Al Carr (especially) are pleased to announce the hiring of Sherri Wheeler, Tapered Estimator.

Sherri was a gift from above to the Tapered Department. She came to Hunter as a temporary receptionist at the front desk, and once she got a look at the Tapered Department, she knew that she was crazy enough to fit in and found her new home. Sherri comes to Hunter with her Bachelors of Science Degree from New England Technology School in Rhode Island in Architectural Building and Engineering. Her last employer was working for Oldcastle Glass, as a Facility Engineer and Scheduler.

Sherri brings a new energy and enthusiasm to the estimating department, she is never without a smile on her face or an enthusiastic chuckle. “She is the dream employee” says Al Carr, the Tapered Departments fierce leader.

Sherri is an avid collector of ceramic cows and clowns. She also in her spare time collects dandelions and makes paper cranes.
