RE: Coated Glass Faced Products

With the increasing demand for Coated Glass Faced products and the current availability and subsequent raw material costs associated with this premium facer we are forced to announce a price increase on the following products:

- H-Shield CG
- Tapered H-Shield CG
- ½" High Density Cover Board
- H-Shield HD Composite CG

Effective August 1, 2014:

- 6% price increase on all ½" HD, HD Composite CG and Tapered CG products
- \$8.00 per square upcharge for CG faced products over our standard H-Shield flat products

This price increase is in addition to the price increase earlier announced for July of 2014 for all Polyiso products.

Sincerely,

A handwritten signature in black ink that reads "Jim Whitton".
