### **Announcement**

**Date:** May 19, 2015

**Re:** International Roadcheck

In an effort to keep open lines of communication with our customers, we wanted to notify you that this year's International Roadcheck will take place on June 2, 3, and 4. International Roadcheck is a targeted commercial vehicle inspection and compliance effort that is conducted across North America. Many drivers choose to take vacation time during Roadcheck, so truck capacity is expected to be in short supply throughout the week of June 1-5.

As always, Hunter will make every effort to accommodate customers' requested delivery dates. However, if material delivery dates are flexible, please try to avoid deliveries during Roadcheck week. Reducing demand will improve Hunter's chances of covering the freight that must ship that week.

For more information about International Roadcheck, please visit:  
[http://www.cvsa.org/programs/int\\_roadcheck.php](http://www.cvsa.org/programs/int_roadcheck.php).

Best Regards,

MacGregor Pierce
