

Reduce job site labor.  
Shorten build time.  
Save on waste and wood products.

**Introducing PURewall™ by Hunter Panels.**  
**A wall that will save the builder time and money.**

PURewall™ is a continuously insulated, highly energy-efficient structural wall. It combines Hunter PW-STR Structural Spray Foam with Hunter PW-CG polyiso insulation and is pre-assembled in an environmentally controlled setting at the panelization facility, allowing for repeatable, tight-tolerance construction.

**If you are a builder or panelizer and want to learn more, call us at 888.746.1114 or go to [hunterpanels.com/purewall](https://hunterpanels.com/purewall).**

**Visit us at PCBC in SF Booth # 2061**
