

## CAV-GRIP Container Recycling Program with CleanEarth●

Hunter Panels is part of an exclusive program with Clean Earth that provides a low-cost and eco-friendly disposal option for empty 40# CAV-GRIP cylinders. If you properly package and ship the minimum requirement to an approved disposal facility, Clean Earth will recycle them free of charge.

- **ALL CYLINDERS MUST BE DEPRESSURIZED PRIOR TO SHIPMENT.** Cylinders that do not have the friable disk or knockout valve removed will not be accepted.
- Cylinders must be properly packaged for shipment to the disposal facility.
- Shipments must contain at least 12 cylinders or a \$100 fee will be assessed. There is no maximum cap limit for the number of cylinders that can be shipped.

### Cylinder Preparation

Please note that ALL cylinders must go through the following procedure to be accepted at a Clean Earth recycling facility.

**Use eye protection and impervious gloves.**

- 1) Follow the Cylinder Disposal directions on the [Hunter Panels CAV-GRIP product data sheet](#).
- 2) Once cylinders are empty and vented, carefully puncture the friable disc or knockout valve on the top of the cylinder(s).
- 3) Cylinders should then be packaged for shipment to the recycling facility. Cylinders are to be placed on a pallet and shrink-wrapped or placed in a [Gaylord shipping box](#).

### Shipping Containers to Clean Earth

Once the cylinder shipment has been properly prepared, shipping arrangements can be made with an LTL carrier.

**Please note that all packaging, shipping arrangements, and transportation costs are the sole responsibility of the sender.**

Some national LTL carriers include:

- **SAIA Motor Freight:** To schedule a pickup call **1-800-765-7242** or visit <https://www.saia.com/pickup>
- **YRC Freight:** To schedule a pickup call **1-800-610-6500** or visit <https://my.yrc.com/tools/pickup>
- **Estes Express Lines:** To schedule a pickup call **1-866-378-3748** or visit <https://www.estes-express.com/myestes/pickup-request>
- **Old Dominion Freight Line:** To schedule a pickup call **1-800-235-5569** or visit <https://www.odfl.com/Pickup/pickup.faces>

When setting up a shipment with an LTL carrier, the following information will be required:

- Address for pickup of the packaged cylinders
- Weight of shipment (CAV-GRIP cylinders weigh approximately 8-9 pounds each)
- Dimension of shipment
- Designation of shipment is Class 125
- Delivery address for the packaged cylinders (select from one of the Clean Earth locations below)

### Clean Earth Locations

Address	City/State/Zip	Phone Number
1689 Shar-Cal Road	Calvert City, KY 42029	270-605-2105
